

Paragraph about my Monsters

My first horrifying monster is the **BEASTER BUNNY!!**

The beaster bunny is monstrous big, with huge snow white teeth. He got his pink oven gloves to protect his terrifying claws which is his most powerful and frightened weapon. His second weapon is his little egg bombs, as he has sat and painted in sweet dazzling colors.

Beaster Bunny comes from underground, nobody has seen his city in the underworld but some people have seen how he has bounce into a hole, far, far into the shadowy deep forest. His fur is white as snow and his eyes are red as blood.

My second monster is **ZOMBIE ZANTA!**

Zombie Zanta has an enormous candy cane that can be converted into a bazooka shooting niches.

He has a beard as it grows long rusty chains in. He whips his enemies with his long spooky beard to their death.

He has a lanky, disgusting, heavy tongue that is like a slow worm, if you cleave it off, a new one grows out.

It might be hard to believe, but in fact, he has been kind once in a time, but it was before his wife left him for another man who was actually paid in money and not in joyful children. After that he became an alcoholic, and that's why he got wicked.

You may still think he will give you a gift, and he will, just not the gift you expect...
